Group country report 2020-21

In the year 2020-21 the work group produces a migration country report.

The objective of the country report is to learn how to download accurate statistics from the Eurostat data base and in the future to use original data and not data reported in publication frequently not correct. As you know the numbers count very much in understanding a phenomenon and in particular in this field where the lack of attention to the definition create wrong conclusions.

a- You have to choose a country
See the list of groups and countries

a-2 List of subjects:
Countries of destination
-   Stock total population,
-   Stock of migrants in the last 10 years
-   Immigrant stock by category (sex, age, country of birth and reason for migration)

-   Population growth
-   Flows of migrants in the last 10 years
    Immigration flow (by sex, age, country of birth and reason for migration)

-   Total number of refugees (asylum seekers, sex, age)
-   Share of refugees on total migration
-   Migrants integration indicators employment or unemployment

How to write the country report?
You should look up for the information at the Eurostat database site
https://ec.europa.eu/eurostat/data/database
Follow the tutorals and slides of Sona Kalantaryan and the Manual guide on migration data.
You should create some diagrams with the data updated to the most recent in order to explain the situation in the country. Each table should present the label used to down load the table form the official dataweb. In the example below Source:EUROSTAT (migr_imm3ctb) which if introduced in the Eurostat web go directly to the data.
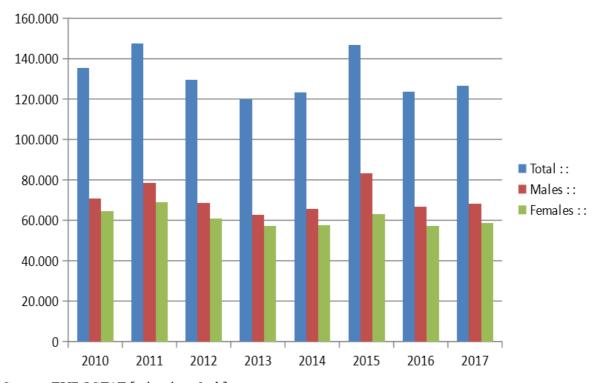

2.b Country of origin

-   Human development index of the country from a source different from the Eurostat in the last 10 years
-   Population growth in the last 10 years
-    GDP per capita in the last 10 years
-   Labour force, employment and unemployment
-   Stock of migrants
-    and flow of migrants in the last 10 years from Eurostat statistics

- Education by level primary, secondary, tertiary
- Employment and unemployment
- Migrants and immigrants in the last 10 years

How to write a report, down load the statistics putting always clearly the source, a comment with few lines. At the beginning or at the end write a final comment on the migration phenomenon in the country analyzed. Use only international data of official site, European, United Nations, IOM, OECD or similar.

Send the paper Migrationineurope@unito.it

Source: EUROSTAT [migr_imm3ctb]

And the report should have a small introduction and a small comment of the table that you present.

And sent at least 3 days before the presentation TO THE MAIL: migrationineurope@unito.it
